SUBJECT : Academic Contacts

Attachment A is a list of academic institutions, nationwide, which our recruiters contact either regularly or occasionally. As you know, our primary relationship at a college or university is with Placement Office officials. As such, it is essentially an institutionalized relationship rather than a personalized one. These officials change constantly but, given additional time, we can provide a current roster. With the assistance or consent of placement officials, recruiters also develop contact with selected department heads and graduate-level advisors in academic disciplines where our personnel needs are both continuing and substantial in number, e.g., Electronic Engineers and Research Economists.
